

MANUFACTURING CAPABILITIES

Versatek offers a wide range of manufacturing capabilities. Our manufacturing facility is located in Lancaster County, Pennsylvania and draws on a workforce that is experienced and steeped in the tradition of quality manufacturing that is inherent to this region. The following is a listing of our primary manufacturing capabilities.

MACHINERY:

Cutting –	Holzma HPL 33 Panel Saw (CNC) Two (2) Holzma HPP 350 Panel Saw (CNC) Homag Espana Panel Saw (CNC)
Boring –	Biesse Techno 2011 Through-Feed Boring Mill Biesse Eko 902 CNC Machining Center CXH Root Boring Mill (2) Root Horizontal Boring Mill (2)
Edging –	Homag KAL 700 Single Side Edgebander (CNC) Homag Single Side Edgebander Brandt Ambition 1220 FC High Flex Edgebander Brandt KTD 82 3MM Profile Edgebander Brandt KTD 720 Contour Edgebander Brandt FTK 130 Trimming Unit SNX Technology, Profile Edgebander
Machining –	Weeke (5) Combination CNC Machining Centers Weeke BHX 500 Boring Center Ekstrom/Carlson CNC Router (2) Duspohl Notcher
Finishing & Graphics –	Spray Booths with Binks Spray System (2) Screen Printing Capability Digital Duplicator
Miscellaneous –	5' x 12' Laminate/Veneer Cold Press Line Universal Auto "V" Fold Machine Jokile Pinch Roller for Laminating Potdevin Glue Applicator & Press Automated Flat Pack line for KD Packaging Bar Code capabilities

In addition to these work centers, we have a variety of Drill Presses, Band Saws, Table Saws, Radial Arm Saws, Pin Routers, Auto Sanders and various hand tools that allow flexibility in creating custom work cells for efficient, expedient processing of products.
